EDUCATION

Bachelors Degree in Software Engineering

National University of Computing and Emerging Sciences | FAST

Aug 2022 - June 2026

Islamabad, Pakistan

PROFESSIONAL EXPERIENCE

Full Stack Developer

FRACK Technologies

Jun 2025 - Dec 2025

Islamabad, Pakistan

Worked in the full-stack team engineering a custom aviation marketplace using industry-standard technologies, enabling Transworld to buy, sell, and auction aviation parts online efficiently.

Full Stack Intern

DijitalBrains

Jul 2024 - Aug 2024

Faisalabad, Pakistan

Worked in a client-facing full-stack team engineering web applications for US based clients.

PROJECTS

Splash 🌐 [Next.js](#) | [Drizzle ORM](#) | [Xenova](#) | [Stripe](#) | [SQLite](#)

- Built an influencer marketing platform with role-based portals for brands, influencers and admins.
- Implemented AI recommendation engine with MiniLM embeddings and cosine similarity for influencer matching.
- Secured in-app messaging with AES-256-GCM encryption and PBKDF2 per-conversation key derivation.
- Tracked affiliate link performance with click analytics and integrated Stripe for campaign billing.

Codely 🌐 [Next.js](#) | [Socket.io](#) | [Monaco Editor](#) | [Anthropic API](#)

- Built an AI-powered mock interview platform for generating and evaluating coding problems.
- Implemented real-time hints using WebSockets and debounced code analysis.
- Integrated Monaco Editor with multi-language support and isolated coding sessions.
- Developed an evaluation pipeline for correctness, complexity analysis and feedback generation.

Messenger 🌐 [React.js](#) | [Node.js](#) | [Web Crypto API](#) | [Socket.io](#) | [MongoDB](#)

- Built end-to-end encrypted messaging system with client-side AES-256-GCM and RSA-2048 hybrid cryptography.
- Implemented custom ECDH key exchange with RSA-PSS signatures and HKDF derivation to prevent MITM attacks.
- Enforced replay attack protection via per-message nonces, sequence numbers and 5-minute timestamp windows.
- Secured file sharing with chunked client-side encryption and private keys isolated to browser IndexedDB.

CafeCampus ERP 🌐 [React.js](#) | [Node.js](#) | [Express](#) | [MongoDB](#) | [Stripe](#)

- Built a full-stack cafe management ERP with role-based portals for customers, staff and admins.
- Integrated Stripe payment intents for secure cart checkout with real-time order tracking via WebSockets.
- Implemented JWT-based auth with bcrypt hashing, OTP verification and token-persistent sessions.
- Developed staff dashboard with inventory control, promotions, sales reports and help desk ticket resolution.

HONORS & AWARDS

Full Bright Scholarship (Punjab Group of Colleges)

LEADERSHIP

Lead PR and Marketing | Head of Marketing (Software Engineering Society)

TECHNICAL SKILLS

Languages: TypeScript | JavaScript | Python | SQL | C++

Web & Backend: Next.js | Express.js | React.js | Node.js | FastAPI

Cloud: AWS | Azure | GCP | Docker | Linux | CI/CD

Databases: PostgreSQL | MongoDB | Redis | Supabase

Tools: Git | GitHub | Vercel | Figma | n8n | Lovable
